

Sahil Miyawala

Web Developer

Aspiring MERN Stack Developer with hands-on experience in creating functional web applications. Proficient in ReactJS, Node.js, and Express, with projects like a Fashion Frenzy and Restaurant Management under my belt. Looking to contribute to a forward-thinking company and grow in a collaborative, tech-driven environment.

SAL College Of Engineering

09/2021 - 09/2024

7.2 SPI

Diploma Engineering

L.J. Institute of Engineering and Technology

09/2018 - 09/2021

7.6 SPI

WORK EXPERIENCE

Web Development Intern

Tech Nishal

01/2024 - 04/2024

Ahmedabad

Achievements/Tasks

- Contributed to the development of Fashion Frenzy, an e-commerce app designed to connect fashion enthusiasts with sellers.
- Developed responsive UI components using ReactJS to ensure a seamless shopping experience across different devices.
- Worked closely with a cross-functional team to integrate back-end APIs and refine UI/UX elements based on feedback.

Web Development Intern

Compel Consultancy

07/2023 - 08/2023

Mumbai

Achievements/Tasks

- Contributed to the development of a Restaurant Website for Dine-In and Takeaways, featuring online event and table booking functionalities.
- Enhanced the user interface using ReactJS, ensuring a mobile-friendly and visually consistent design.
- Collaborated with senior developers to optimize front-end performance and streamline booking workflows.

PERSONAL PROJECTS

Talk-Flow-Chat-App

- Successfully built a comprehensive team collaboration platform integrating real-time messaging, task management, and file-sharing features, enhancing productivity for teams and businesses.
- Designed and implemented intuitive channel-based communication and task tracking systems, enabling efficient organization and streamlined workflows for diverse users.
- Delivered a scalable solution with cross-platform accessibility and robust data security measures, meeting the needs of freelancers, small teams, and large enterprises alike.

Luxury.io

- Built a premium MERN stack e-commerce platform featuring high-end fashion, accessories, and lifestyle products.
- Created a responsive React front end, secure Node.js/Express back end, and scalable MongoDB database.
- Integrated features like dynamic search, secure payments, and optimized performance for seamless shopping.

INoteBook (Notes App with CRUD Operations)

- Created a feature-rich notes application with full CRUD functionality.
- Designed a user-friendly interface for easy note management, including adding, editing, and deleting notes.
- User can store their notes in server side.

News-App

- Created a React.js website to display various news headlines across categories like Sports, Education, Entertainment, and more.
- Integrated APIs to fetch real-time news updates, ensuring users stay informed with the latest information.
- Integrated real-time updates and category-based filtering for personalized user experiences.

Portfolio Website

- Designed and developed a personal portfolio website to showcase projects and skills.
